

### Station 1: Welcome

Welcome to Hayes Woods! This 46-acre parcel was the generous gift of Joseph and Elsa Hayes who donated it to the Groton Conservation Trust in 1994. Philip Lyons of BSA Troop 3 took on the task of creating this nature trail, complete with bridges. Local Scout Brad Taylor added 16 informational stations for his Eagle Scout project for Troop 1. We have digitized the information for online viewing, and updated the stations as the ecology has changed over the years. As you continue along this trail you will encounter 15 more stations, each with information about the land and the species that live here. Have a wonderful walk!
